Summary

Results-oriented software developer with 1 year of experience at Staunchsys It Services. Proficient in Java and specializing in Spring Boot development, demonstrating strong problem-solving skills. Eager to learn and adapt to new technologies. Interested in full stack development.

Experience

Software Developer • Staunchsys IT Services   **Jul 2023 - Present**

- Developed and implemented Springboot projects using Java programming language
- Conducted thorough unit testing, integration testing and debugging to ensure the functionality and performance of the applications

Internship • Staunchsys IT Services   **Feb 2023 - Jun 2023**

Experienced in Java, HTML, CSS, JavaScript and Linux. Developed impactful CRUD projects utilizing frontend technologies such as Bootstrap and JavaScript, while implementing backend functionality with SpringBoot.

Education

Bachelor of Engineering - BE • Gandhinagar Institute Of Technology,   **Jul 2019 - Jul 2023 Gandhinagar**

Computer Engineering • Grade: 7.56

Projects

CFWS(content filtering web security)   **Jul 2023 - Present**

Staunchsys IT Services

This project is designed to filter network traffic for devices or groups of devices under each client, using policies and rules defined specifically for that client. The core of the system includes an Agent module that handles traffic filtering according to these client-specific policies. The Agent is synchronized with a cloud system, which also functions as an agent for Windows devices, ensuring consistent policy enforcement across different platforms. For internal messaging, the project utilizes RabbitMQ to facilitate efficient and reliable communication. The system is built using Spring Boot for the application framework, and it employs Azure Sharded PostgreSQL as the database solution to handle data storage and scalability.

portfolio   **Jul 2024 - Jul 2024**

Developed a personal portfolio website in tailwind css and next js.

Skills

UnitTesting, Tailwindcss, git, github, postman, Swagger, Java reactjs, Spring-Boot, Javascript (Intermediate Level)
